

## **ANNOUNCEMENT**

**September 9, 2011**

### **Upcoming Nighttime Freeway Closures in Mountain View for the Permanente and Stevens Creek Trail Projects**

The City of Mountain View is currently constructing overcrossings of Highway 101 and Highway 85 to extend the Permanente and Stevens Creek Trails, respectively. More information about the projects is available by clicking on the project links at [http://www.mountainview.gov/city\\_hall/public\\_works/default.asp](http://www.mountainview.gov/city_hall/public_works/default.asp).

Construction of the overcrossings will require nighttime closures of Highway 101 and Highway 85 as follows:

**Wednesday, 9/14/11, 11:30PM to 4:30AM:** Northbound Highway 101 will be closed between Shoreline Boulevard and Rengstorff Avenue. Northbound 101 traffic will be directed to Old Middlefield Road off ramp then to Rengstorff Avenue back to Northbound 101.

**Thursday, 9/15/11, 11:30PM to 5:00AM:** Southbound Highway 101 will be closed between Rengstorff Avenue and Shoreline Boulevard. Southbound 101 traffic will be directed to Amphitheater Parkway off ramp then to Shoreline Boulevard back to Southbound 101. Eastbound Charleston Road traffic will be directed to Rengstorff Avenue then to Old Middlefield Road back to Southbound 101.

**Monday, 9/19/11, 11:30PM to 4:30AM:** Northbound Highway 85 will be closed between Fremont Avenue and El Camino Real. Southbound 85 traffic will be directed to Fremont Avenue off ramp, to Mary Avenue then to El Camino back to Southbound 85.

**Tuesday, 9/20/11, 11:30PM to 5:30AM:** Southbound Highway 85 will be closed between El Camino Real and Fremont Avenue. Southbound 85 traffic will be directed to El Camino Real loop off ramp, to Mary Avenue, then to Fremont Avenue back to Southbound 85.

Freeway closures may need to be extended for an additional two or three days. If required, the detour routes and closure times described above would apply.

Delays should be anticipated from approximately one hour prior to commencement of the closures to one hour after the end of the closures. California Highway Patrol and City of Mountain View law enforcement officers will be stationed throughout the project area to assist with the closures. Please follow the detour signs posted along the detour routes and

drive cautiously. The City appreciates your patience as we construct these new overcrossings for the community.

Questions regarding the closures should be directed to the City's project manager, Sean Rose at 650-903-6311 or [sean.rose@mountainview.gov](mailto:sean.rose@mountainview.gov).
